Discovering unexplored corners

Introduction

Our website is an interactive map designed to help people explore Alexandria in a modern and engaging way. It allows locals, tourists, and students to discover the city's beauty, history, and main attractions all in one place.

Map Overview

The homepage features a detailed map of Alexandria divided into main areas like Smouha, Shatby, Raml Station, and San Stefano. Each zone can be clicked to show its landmarks, photos, and short descriptions that highlight what makes it special.

Area Highlights

Every area in Alexandria has its own charm. Smouha stands out with its cafés and modern lifestyle, Shatby is known for its university and cultural sites, Raml Station reflects the city's historical heart, while San Stefano shines with luxury hotels and a stunning sea view.

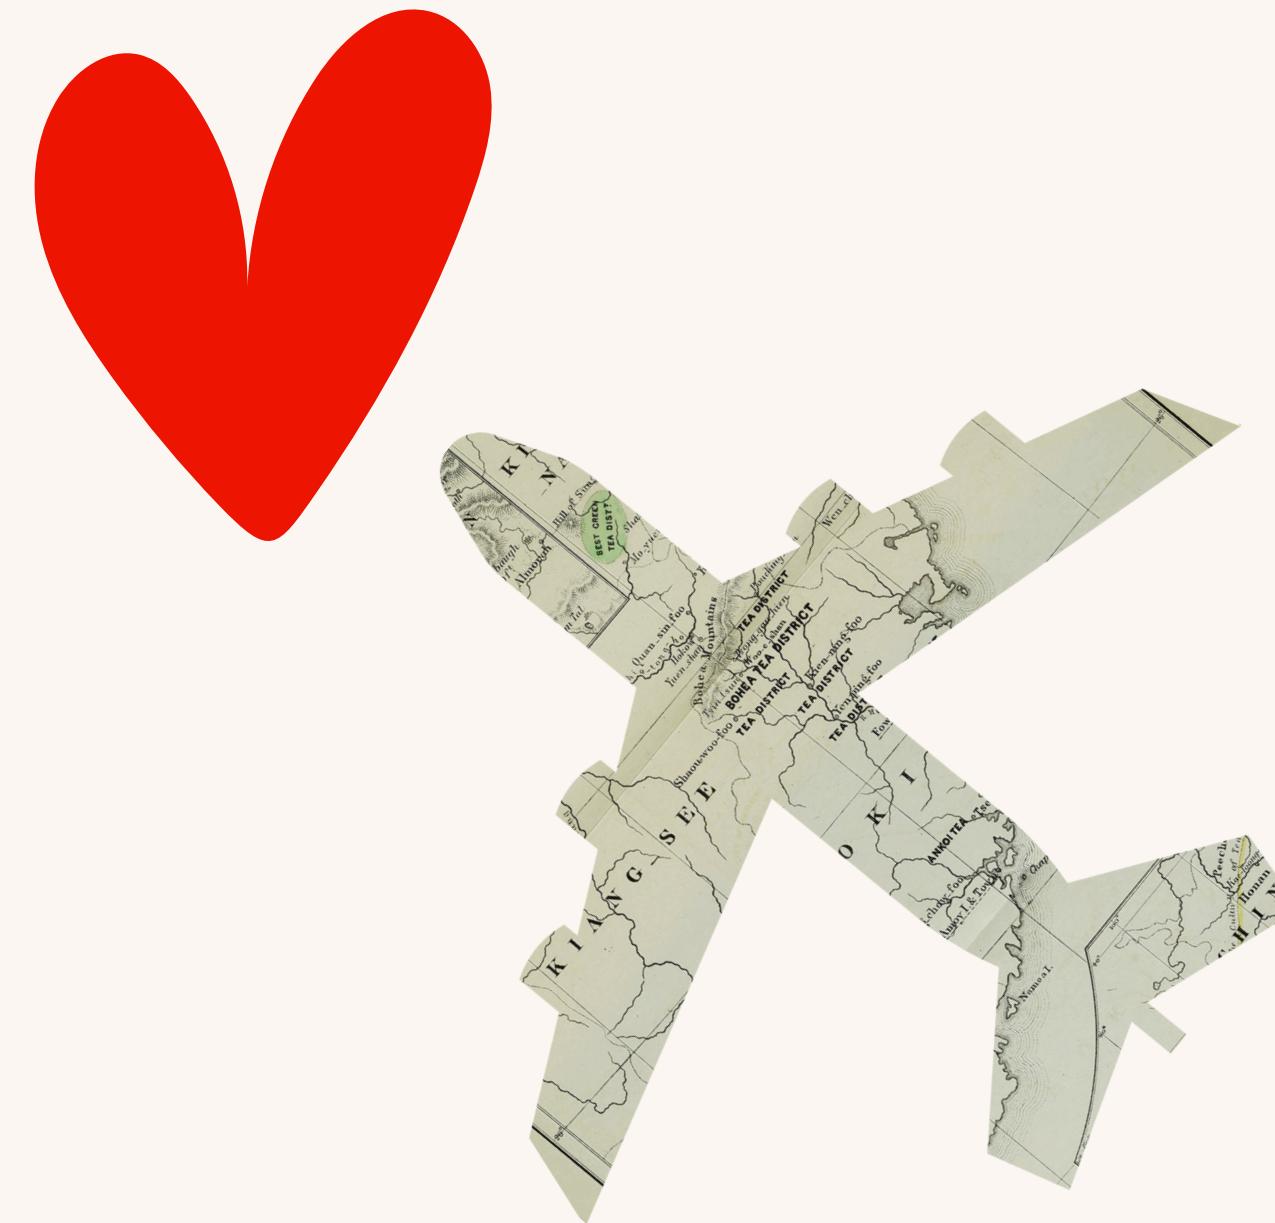

Content Sections

The website includes different content sections that match each area's identity. Users can explore museums with photos and history, enjoy gardens and natural views, read about historical places, or find recommendations for popular cafés and restaurants.

Sidebar & Interaction

A smart sidebar lets users save their favorite areas and switch easily between locations. The design focuses on smooth interaction, so exploring the city feels simple, fun, and intuitive for everyone.

Thank
you very
much!
